PROFESSIONAL SUMMARY

Highly motivated AI/ML Engineer with a strong foundation in full-stack development and a proven ability to build scalable applications. Experienced in leveraging Python, TensorFlow, React, and Node.js to deliver innovative solutions, from AI-powered tools to robust web platforms.

CORE SKILLS

Programming Languages: C++, Python, JavaScript, SQL

Frameworks & Libraries: React, Node.js, Express, Django, TensorFlow

Tools & Platforms: Git, Docker, Linux, AWS, Postman, MySQL, MongoDB, PostgreSQL, Data Structures, Algorithms, OOP, REST APIs, System Design

PROJECTS

AI Resume Builder | Python, Streamlit, OpenAI API

- Developed an AI-powered resume generator using Python and OpenAI API, automating content creation for diverse roles.
- Deployed a Streamlit application that served over 1000 students, significantly streamlining their job application process.

Smart Attendance System | React, Node.js, MongoDB

- Engineered a real-time smart attendance system integrating face-recognition technology for automated student tracking.
- Achieved 95% accuracy in attendance logging, utilizing React, Node.js, and MongoDB for a robust full-stack solution.

E-commerce Web App | MERN Stack

- Built a full-stack e-commerce platform using the MERN stack, featuring secure payment processing and user authentication.
- Implemented an administrative dashboard for product management, order tracking, and user role management.

Weather Analytics Dashboard | Python, Flask, Chart.js

- Developed a real-time weather analytics dashboard using Python and Flask to visualize API-fetched meteorological data.
- Integrated Chart.js for interactive data representation, providing users with dynamic insights into meteorological trends.

PROFESSIONAL EXPERIENCE

Software Engineering Intern | ABC Technologies | May 2024 - Jul 2024

- Developed REST APIs using Django and PostgreSQL.
- Reduced query latency by 35% through indexing and caching.
- Deployed services using Docker on AWS EC2.

Frontend Developer Intern | StartupHub | Dec 2023 - Feb 2024

- Built responsive UI with React and Tailwind.
- Improved page load speed by 40%.

EDUCATION

B.Tech in Electronics and Communication Engineering

National Institute of Technology Durgapur | 2022-2026 | CGPA: 8.72/10
